Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Thursday 13 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Low cloud lingering along coasts today. Chance of some showers.

Today:
Low cloud and mist will linger along some North Sea coasts during the day, and feeling cool. The cloud will break up inland to give some warm sunny spells, with the chance of some showers, especially in the south. Maximum temperature 13 deg C (55 deg F).

Tonight:
Any showers in the south will gradually ease to leave a dry night, with some clear spells developing inland. Low cloud and mist lingering along some North Sea coasts. Minimum temperature 7 deg C (45 deg F).

Friday:
Generally a rather cloudy day, especially along some North Sea coasts, with low cloud and mist lingering. Largely dry for most with some bright or sunny spells developing inland. Maximum temperature 12 deg C (54 deg F).

Outlook for Saturday to Monday:
Largely dry and bright on Saturday, before cloud and showery rain arrives overnight. Widespread showers developing on Sunday and Monday, these locally heavy with the risk of hail and thunder.
